He feels confident that by strictly adhering to the above manner of doing business, he can afford to sell for a much less profit, and avoid making bad debts, which, together with long credits has had a tendency to keep goods at a high price in Springfield.

The public are respectfully invited to compare present with former prices, or with the prices of those who are selling goods on the old plan of six and twelve months credit.

HAYS' LINIMENT.—No Fiction.—This extraordinary chemical composition, the result of science, and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

THE HAIR, THE HAIR, THE HAIR. The genuine Buffalo Oil is fast taking the place of all other preparations, to promote the growth, continue the luxurience, darken and beautify the hair, and gives it a satin gloss, and causes it to curl beautifully, when the hair becomes thin by fever or any other cause, there is nothing like it to give it a start from the roots, it is much to be preferred to any other animal or vegetable preparation, and has recently been proved far superior to Bear's Oil. The genuine article will be signed by the proprietor, William Brown; also observe Buffalo Oil impressed on the viol, accompanied with a copperplate label, representing the Buffalo Hunt, for which I have secured a copy right according to the Act of Congress, in the year of our Lord, one thousand eight hundred and thirty-nine.

Price 37½ cents. For sale by all the principal Druggists in Springfield. Dealers can be supplied on favorable terms, by Messrs. Henshaw, Ward & Co., India st. Boston. Also for sale by all the Druggists in Boston, and by A. B. & D. Sands, 100 Fulton st. New-York.

DR. SHUBAEL HEWES' celebrated Rheumatic, Nerve and Bone Liniment, applied morning and night, has cured hundreds. It gives relief in the swelling of the glands of the throat, and relieves the numbness and contractions of the limbs, and will take swellings down, and inflammations out of the flesh, rheumatism, bruises and sprains.—It gives immediate relief; it strengthens weak limbs, and extends the cords when contracted.—A few drops on sheep's wool applied to the ear of deaf persons, will, by constant application, cause them to hear in two months' time.

HEADACHE.

DR. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of the Nervous and Sick Headache, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache, a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and laboring under distress which they might not only alleviate, but eradicate by the use of his remedy.

It is the result of scientific research, and is entirely of a different character from advertised patent medicines, and is not unpleasant to the taste.

To be read by all without fail; Dr. Spohn's Elixir of Health.

THE author of this article is very desirous that his views and assertions should not be misunderstood, and that the public should know the real merits and effects of so important a remedy. He will state a few facts on which the reader may most implicitly rely. *They are true.* It is asserted most solemnly and seriously, and the person who will investigate will find them *incorable*. On this assertion the author pledges his reputation and character not only as a man and physician, but as a moral and correct good citizen. We repeat, this medicine is all it professes to be.

Gentlemen have told the proprietors often, that whether prudent or not they *feel* perfectly safe from any fever while they have the article. They can *always* throw off the worst kind of fevers in a few hours, if taken at the commencement. They rise from its use without the least debility, and feel perfectly free, well and bright.

Will not the public give it a trial?

An uncommon fact is, that this remedy is a syrup palatable and pleasant to the taste, and children take it always with the greatest readiness.

The proprietor is now making rapid arrangements to have this article in the hands of every druggist and apothecary in this country. It may be known to be genuine by the signature of the gentleman and physician who is the author of it.
E. SPOHN, M. D.

It is with great pleasure that the agents are enabled thus to bring forward an article so truly meritorious as this syrup, and from such a source, and they trust the community who have occasion for its use may always find it within their reach, both as to places at which it may be found, and the low prices at which it is sold, and of all respectable Druggists.

HAYS' LINIMENT.

Florence, Alabama, Sept. 28.

A GENTLEMAN of the highest standing in this town, who has been dreadfully afflicted with the Blind Piles for the last 26 years, called upon me and freely confessed to me his situation. After describing the severity of the complaint, he remarked he had not been so well for 20 years past as he was at that moment. He had used one bottle only of Hays' Liniment. To use his own words he said "the whole human family, who were thus afflicted, ought to be made acquainted with this medicine."
Signed, R. L. BLISS.

The original letter may be seen where the article is sold, No. 2, Fletcher-street, New York, and at nearly all the apothecaries in North America. None can be genuine without the signature of Comstock & Co., written on a splendid wrapper.

BALDNESS.—A beautiful head of hair is the greatest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. To avert all those unpleasant circumstances, Oldridge's Balm of Columbia stops the hair from falling off on the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

THE Subscribers are now manufacturing and offer for sale, at the Springfield Foundry, Jewett's newly invented Cary PLOUGH.

This Plough is altogether different from any heretofore offered to this community, and is believed, by competent judges, to possess many advantages over any other, for this country. The mould board is made of wrought iron, one-fourth of an inch thick, and the Share of wrought Iron or Steel, and the whole face of the Mould Board and Share is ground and polished perfectly smooth and bright, so that the dirt cannot adhere to it. The Share is so simple that it can be repaired, or a new one made by any Blacksmith, and is secured to the Mould Board by three small bolts and nuts, and requires the aid of no other instrument than the Clevis pin (which is always at hand) to take it off and put it on—the Share being all that can want repairing.

This Plough is very light and strong, both as regards the Iron and Wood work, and is stocked with the best of timber, selected and thoroughly seasoned for the purpose—and the Wood work well painted.

Having had a considerable experience in the manufacture of Ploughs in Illinois, and the opinions of many of our best practical farmers in regard to the shape of the Mould Board, (knowing well the necessity of having it a proper shape) believe, in connection with many who are best capable of judging, that we can now furnish a Plough that will scour and keep clean in any soil; and invite all who may wish to purchase this indispensable implement of husbandry, to call and examine ours, before purchasing elsewhere, believing that it will be to their interest to do so.

FOR PRESIDENT

MARTIN VAN BUREN,

FOR VICE PRESIDENT

RICHARD M. JOHNSON.

For Electors of President and Vice President.
ADAM W. SNYDER, of St. Clair County.
ISAAC P. WALKER, of Vermillion County.
JOHN W. ELDREDGE of Cook County.
JOHN A. McCLERNAND, of Gallatin County.
JAMES H. RALSTON, of Adams County.

☞ We are authorized to announce Col. E. D. TAYLOR, a candidate for the Senate, to represent Sangamon, Menard, Logan, and Christian counties, in the next General Assembly.

[COMMUNICATED.]

MESSRS EDITORS: If JAMES BARRETT, Esq. of Island Grove, would become a candidate for Representative to the General Assembly, it will afford pleasure to many of his fellow-citizens of Sangamon to vote for him.

MANY VOTERS.

☞ We are authorized to announce MILTON CARPENTER as a candidate for re-election, to represent Hamilton county in the next General Assembly.

We are authorized to state that RICHARD BENTLEY, Esq., is a Democratic candidate to represent Bond county in the next Legislature.

NEW JERSEY CASE DECIDED.

We learn from Washington that the committee on Elections, have reported in the N. Jersey Contested Election, that the democratic members have a majority of the votes of the People, and are entitled to their seats as members of the House of Representatives in Congress.

So ends this miserable attempt of Federalism to defraud the People of New Jersey out of their delegation in Congress. The Committee, consisting of a majority of Whigs, have reported that the *broad seal* of Gov. Pennington certified to a *falsehood.*

WASHINGTON CITY, March 10, 1840.

In consequence of the confusion that has taken place in the House of Representatives, and the delay that I have been subjected to, I am only able to say to you, that the Democratic Republicans from New Jersey, were to-day admitted to their seats, by a vote of ayes 111 to noes 80!!!

Thus, have the People and correct Principles triumphed over the arts and designs of the enemies of Free Institutions, Liberty and Law. To use a nasty cant phrase of the Whigs, this is glory enough for one day.

DEMOCRATIC CONVENTIONS.

We have received the proceedings of the Democratic conventions of Pike and Brown counties, which want of room compels us to defer until our next.

The PIKE county convention was held on the 14th instant. Col. DARIUS DEXTER was chairman, and ALEXANDER STARNE, secretary. The convention then nominated SOLOMON PARSONS and ALPHEUS WHEELER, candidates for Representatives to the Legislature, ALFRED GRUBB, for sheriff, WILLIAM BLAIR, for county commissioner, and STEPHEN ST. JOHN, for coroner. This is a strong Democratic team, and we have no doubt that, with energy in the contest, it must be successful.

BROWN COUNTY.

The Democratic convention in BROWN was held on the 7th inst. JOHN MARTIN Esq. was chairman, and Geo. T. Myers, Esq. was chosen secretary. HARVEY LUSTER, Esq. was nominated as the Democratic candidate for Representative. We learn that Mr. LUSTER is a firm, unwavering Democrat in principle, and an intelligent and talented man. The convention was ably addressed by Messrs Paine, Brockman, Vandeventer, and Luster. God speed the good cause of the People.

FAYETTE COUNTY.

We perceive by the Vandalia Sentinel, that our old friends in Vandalia have held a precinct meeting, preliminary to the holding of a county convention on the 25th April. We are glad to see our old friends rousing up. Fayette county is a lion in the Democratic cause. With union and harmony, and energy, let us see if she cannot poll the highest Democratic majority next August and November, of any county in the State. She only has to try, to do it. She holds within her bosom the pure essence of Democracy—men who vote from principle.

Will MR. DAVIS, *Editor of the Peoria Register, answer the following Query?*

Did you, in November 1837, during the Congressional Convention at Peoria, in a conversation with Dr. REDDICK, and others, when questioned as to your politics, say, that you were a whig, but that you had supported Mr. Van Buren in preference to General Harrison, on the grounds of Harrison's incompetency, and that in the event of the same candidates coming before the public again, you would again support Mr. Van Buren?

CHICAGO DEMOCRAT.

Our readers will notice that Mr. Wentworth, the editor of the Chicago Democrat, proposes to furnish that paper to subscribers for $1, up to the 1st Monday of November next. The "Democrat" is amongst the best democratic papers in the State, and no man will begrudge the dollar he gives for it.

IMPORTED STOCK.

We last week called the attention of our readers to the advertisement of Mr. OAKLEY's imported horse *Onus.* We learn that this beautiful and pure-blooded animal, while at New Orleans, on his passage from England, was examined by Gen. JACKSON, who was then on his visit, attending the celebration of the 8th of January. It is well known that Gen. Jackson is an exquisite Judge of a horse, and he pronounced Onus one of the best and purest horses he had ever seen. Mr. Oakley has imported, with Onus, several other excellent specimens of the English stock. One a filly, bred by the late King of England, of the purest racing blood in that country. Also, two fine Durham cows, and a bull, besides a few pure Berkshire hogs.

This is the first stock that has ever been imported direct to this State. We hope, in a few years, Illinois may compete even with Kentucky in fine stock.

GEN. HARRISON'S ATTEMPT TO MAKE GEN. JACKSON A MURDERER, BY CONSTRUCTION.

We copy in another column from the Globe, an article which sets forth the conduct of Gen. Harrison in Congress at the time the Federal party, backed by Harrison, undertook to destroy the reputation of Gen. Jackson for his victory at Pensacola, and for hanging Arbuthnot and Armbrister.

It appears, by the Journals of Congress, that Gen. Harrison led off this attack, by introducing the following resolution:

"Resolved, That the Judiciary committee inquire into the expediency of providing by law for the punishment of CRIMES committed by persons employed in the armies of the United States, WITHOUT THE LIMITS THEREOF, and which are not provided for in existing laws."

Gen. Jackson had shortly before entered Pensacola, then a Spanish town, spiked their cannon, and put an end to the Indian war. He had hung Arbuthnot and Armbrister, British spies, who had instigated the Indians to attack and murder defenceless American citizens. For these bold and patriotic acts, Gen. Jackson was arraigned in Congress by the Federal party, amongst whom was Gen. HARRISON, then a member from Ohio.

Three different modes of destroying the character of Gen. JACKSON were brought forward, FOR ALL OF WHICH GEN. HARRISON VOTED. One was a resolution that the seizure of the Spanish posts was contrary to the constitution. Another condemned the proceedings in the case of Armbrister. Another was the resolution which Gen. Harrison himself introduced, to punish CRIMES committed by persons in the army, and which was intended to pronounce Gen. Jackson A MURDERER BY CONSTRUCTION.

This infamous attempt by Gen. Harrison and the Federalists to destroy the reputation of the Hero of New Orleans, is quoted by the National Intelligencer, and commented on by that leading organ of the Federal party, FOR THE PURPOSE OF STRENGTHENING *HAR*RISON IN THE EASTERN FEDERAL STATES, by showing that Harrison was the enemy of Jackson. Surely, if the Federal papers laud these votes of *Harrison's*, for the purpose of strengthening him with the old Federal party, the Democratic papers in this country, where Gen. Jackson is revered, ought to show up these votes to the People. If the National Intelligencer can get votes for *Harrison* amongst the Federalists, by showing Harrison's vindictive hostility to Gen. Jackson, it will lose just as many of the old Jackson men. But the Intelligencer does not circulate amongst the latter, and hence the editors do not scruple to quote these damning votes of Harrison from the Journals of Congress, to gratify the palates of its Federal readers.

GALLATIN NOMINATIONS.

We learn by a letter from Gallatin county, that the Democracy of that county have held a convention, and nominated the following persons as candidates for the Legislature, viz: DAVID J. BLACKMAN, DANIEL WOOD, and JOHN A. McCLERNAND. For Sheriff, THOMAS TONGUE; and JOHN RINSAUL and SAMUEL ELDER for County Commissioners.

We have the pleasure to be acquainted with all these gentlemen. They are sterling Democrats, and talented men. We are particularly gratified at the nomination of Col. MCCLERNAND. He has been sacrificed by the Federal party by political jugglery. He has been made the victim in a contest in which the constitution of the State was involved. This sacrilege was the act not of the People, but of Federal Senators and *life* Judges.

The coming election in Gallatin will have been the first opportunity the PEOPLE have had to give *their* verdict on this high-handed Federal measure, and we believe the Democracy of Gallatin will speak in tones of thunder at the coming *August* election—in tones that will cause Federalism to shake in its very foundations, and the actors who sacrificed the constitution and created a Secretary of State for life, to quake before the bar of an insulted and injured People.

Our correspondent states that "every precinct in the county was represented, and excepting the late Democratic State Convention, it was the largest convention in either State or county I ever witnessed. This is saying much for a county unaccustomed to the convention system. The best expectations have been realized—more than realized."

"GEN. HARRISON'S REPUBLICANISM."

The Examiner, a Harrison paper published at Rushville in this State, contains an editorial article together with a letter written by Gen. Harrison, which it lays before its readers as evidence of "GEN. HARRISON'S REPUBLICANISM." We publish the following extract from the General's letter for the benefit of his whig friends. We ask them, one and all, to read it, and then tell us whether it furnishes conclusive evidence to THEIR minds of Gen. Harrison's Republicanism. Extract of a letter to the editor of the Inquisitor, dated Cincinnati, Sept. 16th, 1822.

"I deny, therefore, to the General Government, the exercise of any power but what is expressly given to it by the Constitution, or what is essentially necessary to carry the powers expressly given into effect.

I believe that the charter given to the BANK OF THE UNITED STATES, WAS UNCONSTITUTIONAL—it being NOT one of those measures NECESSARY to carry any of the expressly granted powers into effect, and whilst MY VOTES in Congress will show that I will take any constitutional means to REVOKE THE CHARTER, my votes in the Legislature will equally show that I am opposed to those which are unconstitutional or violent and which will bring us into collision with the General Government.

WM. H. HARRISON.

So it appears that Gen. Harrison believes the United States Bank "UNCONSTITUTIONAL," and was willing to "REVOKE THE CHARTER" by his "VOTES IN CONGRESS." Are the whigs of Illinois prepared to swallow this doctrine? Do they believe the United States Bank unconstitutional? Do they believe that Congress possessed the constitutional power to repeal its charter? What has become of their patriotic holy horror of Locoism and agrarianism? Gen. Harrison in favor of the *repeal of the United States Bank Charter by Congress,* and this fact is now published by the whigs as an evidence of his "*Republicanism.*"

We now ask the sober, honest portion of the whig party if they are prepared to subscribe to this doctrine? Have you not for years opposed Gen. Jackson and Mr. Van Buren because of their opposition to a U. S. Bank? And have you not acted with the whig party in this State because they *professed to be in favor* of a United States Bank? You are now told that Gen. Harrison is the regular whig candidate, and he tells you that he is, not only *opposed* to such an institution, but believes it "*unconstitutional,*" and was willing to *revoke its charter* by his votes in Congress.

A FEDERAL CONVENTION

Was held in this town on Saturday last, got up by the Junto, and under its influence a pure Federal ticket, headed by Baker and Lincoln, was formed to represent Sangamon county in the next General Assembly. W. F. Elkin, the *brother* of the present incumbent, was nominated for sheriff, thus keeping the office in *the family.*

The following remarks from "Old Hickory" on this subject are just and forcible. In our next we shall present to our readers some further remarks concerning the Junto convention and its nominees. Mr. EDWARDS has announced his intention of addressing the People tomorrow.

From "Old Hickory."

THE OLD JACKSON MEN PROSCRIBED

It will be recollected that the Federal party first acquired their ascendancy in Old Sangamon, by the aid of the old Jackson men who preferred Judge White to Mr. Van Buren.—They believed Judge White to be as true a democrat and as staunch a Jackson man as Mr. Van Buren, and supported him upon that ground. For the purpose of keeping up this delusion, and to divide the Democratic party, the whigs of this county formed a ticket composed almost exclusively of Jackson men, and in that way revolutionized the county. Upon this ticket were to be found Messrs Herndon, Edwards, Dawson, McCormick, and Willson, all original Jackson men. These men were told by their Democratic friends that the Whigs would deceive and desert them as soon as they got the power; that they would use them to divide and destroy the Democratic party, and then abandon them. We now ask these men if such has not been their fate. Have you not been deceived and betrayed by those who professed to be your friends? Has not Judge White the old Jackson man been backed off to give place to Harrison, an old fashioned Federalist? Have they not deserted every one of you who gave them their power?

Look at the proceedings of the Junto Convention in this town last Saturday. Who are the candidates? Baker, Lincoln, Brown, Bradford, Darniel, and Francis, every one old Federalists, and the uncompromising enemies of Gen. Jackson. What has become of all the old Jackson men? Why was not Edwards, Dawson, McCormick, or Wilson nominated? Why are these men deserted and others substituted in their places? The answer is ready; the reason is obvious. They were *once Jackson men,* and for this *crime* they are now *proscribed* and *laid upon the shelf.* Mr. Herndon discovered their designs long before the Federal party were prepared to avow them. He understood their deceptive and hollowhearted professions and returned to his friends before his comrades were thus betrayed, deserted and kicked off by their new allies. Here is a lesson, full of instruction, for all of those old Jackson men who supported Judge White. They can now see their fate. Their days are numbered. The work of proscription has now commenced under the direction of the Junto in this place, and is to be extended to the whole State. Baker, Lincoln & Co. with their *secret* circulars and Spanish Inquisition are doing the business up well. They want no men in their ranks who have ever been guilty of the sin of Jacksonism or Democracy.

TROUBLE IN THE WIGWAM.

Since writing the above, we have witnessed some of the effects of the juggling and manoeuvreing of the Junto in the Convention. Many of the delegates as well as the great body of the people, were utterly disgusted with the whole proceedings, and are determined not to submit to the dictation and intrigue. Mr. Edwards has openly proclaimed himself a candidate for the Legislature, in opposition to the Junto nominations.—sition to the Junto nominee. How beautiful the SECRET SYSTEM of Baker, Lincoln & Co. works.

HARRISON'S ATTACK ON GEN. JACKSON.

The National Intelligencer of March 3d, to commend Gen. HARRISON more thoroughly to the Federal support, has an elaborate article of two columns, setting forth the service he rendered that party in Congress in assailing the military reputation of Gen. JACKSON. From the account now paraded in the Intelligencer, it appears that Gen. HARRISON, when in Congress, in 1819, united with the Federalists in the attempt to pronounce a Congressional condemnation against him for the conquest of Florida, and for the execution of ARBUTHNOT and AMBRISTER, the instigators of the Seminole war. From the extracts produced from the journal, it is clear that Gen. HARRISON cunningly endeavored to affix a deeper stigma on Gen JACKSON, than that proposed by his vindictive and open enemies in Congress. Doubtless Gen. HARRISON's envy of Gen. JACKSON's uninterrupted success, so strongly contrasting with his own melancholy failures, prompted the covert attack he made upon the victor's conduct in the Seminole and Florida campaigns. Of this oblique blow at Gen. JACKSON, we have the following account, in yesterday's Intelligencer:

"The proceedings of Major Gen. Jackson, in his campaign against the Seminole Indians, attracted a great deal of attention, and occupied much of the attention of Congress, whilst Gen. Harrison was a member of the House of Representatives. During the debate upon the report of the Military Committee, (disapproving the proceedings of the trial and execution of the foreign agents, Arbuthnot and Ambrister,) which lasted a number of days, Gen. Harrison offered (January 30, 1819) the following resolution:

"*Resolved,* That the Judiciary Committee inquire into the expediency of providing by law for the punishment of crimes committed by persons employed in the armies of the United States, without the limits thereof, and which are not provided for by existing laws.

"Gen. H. observed, in explanation of his motion, that, "during the discussion which had for some days occupied the House, the question had occurred to him, whether there was any provision in our laws for the punishment of crimes committed by men in the army beyond the limits of the United States, and which were not provided for in the military code; in other words, whether the jurisdiction of our civil courts extended to crimes committed in that situation. He had himself no doubt of the right of jurisdiction being in the nation over its own citizens, employed in the army, in any country where, by the laws of nations, our army had a right to go; but he had understood that the courts of the United States had declined taking cognizance of offences committed any where unless jurisdiction had been expressly given to them by a statute. If this was correct, crimes of the highest class might be committed by individuals of our army in Florida, or elsewhere, out of the limits of the United States, for which there was no legal punishment. The articles of war, Mr. H. observed, provided for the punishment of no crimes but those of a military character. They did not provide for the case of murder. An inferior killing his superior might indeed be punished, and punished with death, under the article which prohibits *the striking* superiors, but there was no adequate punishment for an officer who should murder a soldier, or an officer who was his inferior. Within the limits of the United States, all offences of this description were punished by the civil courts of the States. If the view he had taken of the subject was correct, Mr. H. said, the propriety of passing a law on this subject as speedily as possible must be apparent. He therefore moved the resolution which he had submitted."

The direct proposition introduced to censure General JACKSON, was moderation and forbearance compared with the indirect judgment upon General JACKSON, which HARRISON intended his resolution to imply. The censure proposed by General JACKSON's open enemies, as the Intelligencer tells us, was contained in the resolution reported by the Military Committee, and was in the following words:

"*Resolved, That the House of Representatives of the United States disapprove the proceedings in the trial and execution of Alexander Arbuthnot and Robert C. Ambrister.*"

General HARRISON's insidious cunning suggested, as connected with, and growing out of, the conduct of General JACKSON, the expediency of "*providing by law for the punishment of CRIMES committed by persons employed in the armies of the United States, without the limits thereof;*" and in his speech he pressed his view of the matter, by insisting that the articles of war provided for the punishment of no crimes but those of a military character. "THEY DID NOT PROVIDE FOR THE CASE OF MURDER," (he said;) and in the extract of his speech given in the Intelligencer, in which he softly approaches his object, he says: "*He had no doubt that both men deserved death; yet, being called upon to say whether the execution of* AMBRISTER *was right or wrong, as he differed in his opinion from General* JACKSON, *as to his powers over the court, he was obliged to say it was wrong.*" If General JACKSON had no power to execute these men as he did, independently of the authority of the court, then he was, in General HARRISON's opinion, guilty of murder, and the offence was one for which his resolution was necessary to make provision for the punishment of, as "*a crime committed by persons employed in the armies of the United States, without the limits thereof.*"

The next attempt of Gen. JACKSON's enemies in Congress, to fix the stigma of making war in violation of the Constitution of this country, is thus stated in the National Intelligencer:

"Mr. COBB of Georgia then moved a resolution, declaring '*that the seizure of the Spanish posts of Pensacola and St. Carlos de Barancas, in West Florida, by the army of the United States, was contrary to the Constitution of the United States.*'

"On the question of agreeing to the motion, (which was negatived by 100 votes to 70,) *the vote of General Harrison was recorded in the affirmative.* Soldier as he was, (or had been during a good part of his life,) his conscientious regard for the Constitution showed itself, in this vote, to be stronger than his respect for mere military authority."

Gen. HARRISON and sixty-nine Federalists voted that the act of necessity and self-defence, which annexed Florida to the United States, was a violation of the Constitution. Every body must see in this, the old leaven which works in Federalism every where and in all time. The annexation of Louisiana was a violation of the constitution. Every act, from the foundation of the Government to the present day, calculated to protect the South from foreign enemies, or to give to it peace in its domestic relations, has always found a faction in the North, to brand it with an imputation little short of treason.

For what purpose is Gen. HARRISON's condemnation of Gen. JACKSON's conduct in the Florida and Seminole war now presented and made an issue in the Presidential election? Congress and the country, and even the British Cabinet, approved the conduct of the American General; but such is the undying malignity of Federalism, that the nation is invoked to reconsider its decision, and by calling a man to the Chief Magistracy upon the merit of condemning the late Chief Magistrate as a violator of the Constitution, and, by implication, as a murderer, to give some color to the calumnies with which he has been continually assailed by his political enemies. We think the corrupt Bank party, which now puts forward Gen. HARRISON, will do wisely to permit the old Hero to repose at the Hermitage, with all the honors around him which his grateful country has bestowed. It will do them little good to expose the petty cunning with which Gen. HARRISON, prompted by jealously and envy, sought to arrest the growing popularity which advanced him to the first place in the affections of his countrymen, and the highest of their dignities. They will not reverse their decision, and make the *mock Hero* triumph over the glories of the *true one;* nor mark for reprobation the man who always conquered for his country, by setting above him *the off lard* General, who was always making apologies for defeats, and begging certificates from his subalterns to save him from disgrace.—*Globe.*

"THE GREAT WHIG GATHERING IN OHIO."

The Whig papers of Ohio have been filled for some time past with the most extravagant accounts of the Convention which met at Columbus on the 22d ult. Some of these represent the number present to have been "TWENTY thousand"—others, "*twenty five thousand.*" This large number seems to have been made by some typographical error, in adding one figure too many.

The Columbus Statesman gives the following recapitulation of the delegates in attendance:

Bank directors and officers,	538
Office-holders,	743
Lawyers and Doctors	346
Merchants and speculators,	1,095
Total,	2,722

Among other matters, the Convention nominated THOMAS CORWIN, (member of Congress) for Governor. The Statesman says the union of the Abolitionists and Whigs is now complete; the "Corwin's whole votes in Congress have been with the Abolitionist Slade."—*Vandalia Sentinel.*

THE FAYETTE COUNTY CONVENTION, for the nomination of candidates for Representatives to the next General Assembly, and county officers, will be held in Vandalia, on the 25th day of April next.

The people in motion.—"The work goes bravely on." The Democrats in this county are actuated by a right spirit in reference to an organization of the Party. They are moving in each precinct in favor of the proposed County Convention.

The voters of the Vandalia Precinct held a meeting last Monday, (the proceedings of which will be found in another column,) and appointed Thomas Andrews, Henry Smith, George W. Haley, and Abner Flack, delegates to the Convention.—*Vandalia Sentinel.*

Harrison and the last War.—It can never be forgotten that Gen. Harrison refused to serve till the end of the war. He threw up his commission and retired from all danger in the hour of his country's utmost need. The illustrious Jackson gained all his laurels after Harrison had left the service. The resignation of the one and the appointment of the other was contained in the same order. It was issued by President Madison in the midst of the war, and read as follows:

"Andrew Jackson, of Tennessee, is appointed a Major-General in the army of the United States in the place of Wm. Henry Harrison, of Ohio, resigned."

This short paragraph from the pen of President Madison, is the severest comment that could be made upon the military services of the present federal candidate for the Presidency.—*Philadelphia Times.*

From the New York Evening Post of March 7.

ARRIVAL OF THE GREAT WESTERN.

The steamship Great Western, which left Bristol on the 20th of February, came into port this morning, bringing us London papers of evening of the 19th. We present our readers with as full a summary as the lateness of the hour at which our papers were received, will permit.

The money market was thought to present a more favorable appearance. The number of bills drawn upon England against purchasers of foreign corn was diminishing rapidly, and foreign exchanges manifested a slight tendency to improve. The indications in the manufacturing districts are that the trade was growing better, in consequence of orders received from abroad in addition the ordinary spring demand for home consumption. This has induced a better feeling in the cotton market at Liverpool, where purchasers were sufficiently extensive to arrest the fall of prices.

Her Majesty, Victoria, was married to Prince Albert on Monday, February the 12th at noon, in the Chapel Royal at St. James. The details of this interesting event fill several columns of the largest of the London prints. It was celebrated by festivals and rejoicing in every part of the kingdom; the procession in London was the largest which has been known since the nuptials of the Princess Charlotte of Wales, the crowd being so great that it was with difficulty the entire force of the police could keep open the way for the passage of the royal couple.

SECRET ORDER

Of the State Central Whig Committee to their Subalterns.

Order 9th—"A Senator in Congress is to be elected by our next Legislature. *Let* NO LOCAL *interests divide you, but select candidates* THAT CAN SUCCEED."

"*That can succeed!*" No inquiry is to be made as to the *competency* of the candidates! Oh no—*availability* is the only requisite.—The Washingtonian test about which the whigs have prated so much, viz: "*is he capable—is he honest!*"—is to be wholly lost sight of, and the main inquiry is to be "CAN HE SUCCEED?" And why?—*because,* a Senator in Congress is to be elected! The Representatives are then, not to be elected to protect and advance the interests of the State of Illinois, but with a view to the elevation of some aspiring demagogue to the U. S. Senate. Admirable counsel!

Order 10th.—Our PLAN of operations will OF COURSE, be CONCEALED FROM EVERY ONE except *our good friends,* who of right ought to know them."

"OF COURSE," &c. Yes, "*of course,*" if federalism has any hopes of success, it is in stealing the march upon the democracy—but in this movement, we imagine, these young "generalisimos" have "reckoned without their host"—they will not find the democrats *napping*—but at their posts ready to give them battle.—*Illinois Rep. Schuyler co.*

Office Holders interfering in elections."—How completely do the whigs falsify every declaration they make. They say it should be almost a capital offence for an office holder to interfere in elections—yet Mr. Barrett, Fund Commissioner, and Mr. Henry, Commissioner of the State House, can send their names round appended to a secret circular—and it is all perfectly proper! Verily, "circumstances alter cases!"—*Ib.*

CABINET FURNITURE.

THE subscriber, who has carried on the business for several years in Philadelphia on an extensive scale, has settled in Springfield permanently, and intends manufacturing Cabinet Furniture of every description, in a most elegant and durable manner. One great art in making good furniture, is in varnishing; which is particularly necessary, in as changeable a climate as this, and the subscriber flatters himself that he is master of this branch of the business, as well as the other branches, as he has devoted several years alone to varnishing. He will keep on hand at all times:

Mahogany Chairs, French, half French and Grecian Sofas, Ottoman and Grecian Patterary, Sideboards, Bureaus, Secetareis, Portable Desks, Ladys work Stands, *Wash* Stands, Pier Tables with Marble tops and Mirror backs, Pedestals, Pillow Card Tables, Centre Tables, *Dining* Tables, Breakfast Tables.

MESSRS WALTERS & WEBER:—In looking over a late number of the Illinoian, we discovered an article purporting to be from the pen of L. F Sanders, complaining to the ground squirrel editor of that paper in the most bitter and agonising terms, of the treatment of the post office department to him, which causes the editor to let off a considerable whiff at Mr. Van Buren. It it were not that we are acquainted with this Mr. Sanders, and that such frequent attempts have been made to abuse the public mind in relation to the post office department, we would have considered this article beneath our notice: as for Sanders "highest respectability," spoken of by the Illinoian we will say nothing, knowing that he has none to spare. The letter purporting to be written by him, never came from his pen. Now we are personally acquainted with Mr. Sanders, and we know that he never spoke much less wrote fifteen words in one sentence in his life, it being above his capacity. There cannot be a doubt entertained but the paper which was returned to the editor, was "roughly handled, badly torn and mutilated," and also written on by Sanders himself, for the benefit of some political demagogue who has not the spirit to sign his name to his own productions, but prefers to conceal himself behind Sanders, and make a tool of him.

Now it is well known that the post office department is as well conducted at the present, as it ever has been to say the least of it. Who does not know that the mails on account of bad roads and high waters in this country, at this season of the year, are frequently detained for days, and sometimes for weeks! But if the Illinoian does not get to Stephenson to Mr. Sanders precisely at the time it is due, why then Mr. Van Buren must be hurled from office! just as Sanders was from the post office at Virginia, Cass county, a short time since. If he had been so fortunate as to have received the appointment of Postmaster at Stephenson, he would never have suffered his name to be used by another, to abuse Mr. Van Buren and the Post office department.

THE MOBBING SPIRIT OF MISSOURI RE-KINDLING IN ILLINOIS.

The following is a statement of facts that may be relied on:

A short time since it was ascertained that a Mr. Clark, a member of the Methodist Episcopal church in Logan county, had in his possession the Book of Mormon. For this glaring outrage he was severely reprimanded, deprived of his station as class leader, and the book demanded of him by his preachers, a Mr. Martin and a Mr. Watt.

He (the said Clark) contended that the book was his own property, and unless they bought it they could not have the same. *Accordingly,* the necessary sum was raised, and paid for the book. Shortly after the said book was taken into De Witt county, to a Quarterly Conference meeting, there to await its final trial; and it was condemned, and burnt to ashes—the judges themselves being the executioners. And what is still more appalling, Mr. Watt, a preacher, has been heard unblushingly to assert, that if burning the book would not do, they would next burn the Mormons themselves. If testimony is required on this subject, it can be had at any time.

DR. HENRY AND THE STONE CUTTERS.

MR. EDITORS:—In your last Register I read a representation of grievances by the stone-cutters who were employed at the State House, against the commissioners. As I have been some time a resident in Springfield, I have paid some attention to the management and progress of that building, and would suggest a few remarks to your consideration. Last season the hue and cry was raised from Dan to Bersheba, or at least from Springfield to New York city, to induce stone-cutters to come here. In the month of February Mr. Rogue the Architect was at New York, and advertised in the New York Sun that twenty Stone Cutters were wanted to work at the State capitol of Illinois, for two seasons; wages, two dollars and a half per day; only two were induced to come here by this advertisment, and I am convinced they now have reason to repent it. Some weeks after, Mr Job was at Pittsburg, purchasing lumber, he also was publishing for stone-cutters: after the weather became more agreeable, probably in the month of May or June, Dr. Henry made a tour to Louisville and Cincinnati, and collected some ten or twelve stone-cutters, and paid their passage on to Springfield. In the course of a few month they were all gone from here. I wonder if they will be recorded as acting economically for the benefit of the State. The State House Commissioners seem to act with unlimited controul. They have taken curious contracts in Springfield: Brick work Stone work and Carpenter work: the materials were taken from the state house, and the work done by the men. Dr. Henry has got a considerable addition to his own house; but I suppose the Doctor, has done due justice to the State for this and all others contracts. The State House Clerk's salary would require correct book keeping.

Some of the citizens, who are better acquainted with the Constitution than I am, informed me that all public work that is let by contract, over twenty dollars, ought to be done publickly. I wonder if the commissioners intend to give the cutting and putting up of the Porticos by private contract to some favourites, as they have done the painting and glazing. Mr. Skein, another favourite in the state house office, got the building of the foundation of the porticos, I imagine by private contract. Let those who have observed the performance of it, having any practical experience of masonry, say how such an unconected huddled together pile can be expected to bear the weight of the designed columns and entablature, without shrinking—The state house in Raleigh, North Carolina, has been in progress for five years. During that time the commissioners there exacted no remuneration for their services: if the commissioners here had displayed their magnanimity in the first place, by reducing their own salaries, I am convinced every stone-cutter here would cheerfully do the same.

THE CELEBRATED IMPORTED HORSE ONUS,

RECENTLY purchased in England, by Chas. Oakley, will stand the ensuing season in Tremont, Tazewell county, Illinois.—Onus will be six years old next May, is of a beautiful dark brown, with black mane and tail, full sixteen hands high, and of the most perfect form and action, combined with a high and lofty carriage. He was sired by the celebrated horse Camel, (one of the most fashionable English stallions) out of the Etching mare, by Rubens, thus combining the best blood in England. He was raised by one of the best breeders in that country, and is of the purest and best blood, as can be seen by referring to the English stud book, vol. 5. In the year 1837, when he was three years old, he was put in training at New Market, for the Derby stakes, (by Capt. Gardner, of the royal army,) and made better time in training than the winning horse, but owing to an injury received in practice, he was withdrawn from that race, and the turf. For further particulars of pedigree, &c., see printed bills.

GLOBE HOTEL.

THE undersigned takes this method to inform the public in general, that he has taken possession of the Globe Hotel, in Springfield, Ill., situated a few rods west of the State House, and formerly occupied by Col. George W. Spottswood, where he will at all times be happy to accomodate all who may give him a call. He flatters himself by strict attention to business to merit a share of public patronage.

"Ye strangers, who for enterprize may roam,
We here invite you to a friendly home;
Where, always ready with anxious care,
To serve our guests with choice substantial fare,
Pledged we stand, to set a plenteous board,
With every dish the season can afford;
And when fatigue demands a peaceful rest,
We'll give you beds and bedding of the best.

And sober ostlers, willing to attend,
To all who sojourn through a Western course,
With tired oxen, jaded mule, or horse."

PROTECTION INSURANCE COMPANY.

GENERAL JAMES ADAMS, of Springfield, Sangamon County, Agent of the Protection Insurance Company, Hartford Connecticut, offers to insure houses, stores, mills, factories, barns, and the contents of each together with every other description of property against losses or damage by fire, and will take every description of marine risks. The rates are as low as those of any similar institution, and every person has now an opportunity for an inconsiderable sum of protecting himself against the ravages of fire, as well as the frequent losses on marine transportation, which losses often sweep suddenly away the hard earnings of many years industry, and unless protected by insurance, the result is common even with the opulent that they are reduced to want and indigence.

The course the office pursues in transacting their business, and in the adjustment and payment of losses, is prompt and liberal.

For terms of insurance, application may be made to the above named agent, at his office in Springfield, who is authorized to issue policies to applicants without delay.

NOTICE.

I HAVE taken out letters of administration on the estate of Barton Moore, deceased, and shall attend before the probate justice court, to be held in and for Sangamon county, at the office of the probate justice of the peace, on the first Monday in the month of April, 1840; at which time and place, all persons having claims against the estate of the deceased, are notified and requested to exhibit them for adjustment.

PROSPECTUS
OF THE
MORNING DEMOCRAT.

A DAILY PAPER TO BE PUBLISHED IN THE CITY OF CHICAGO AND STATE OF ILLINOIS, COMMENCING WITH THE FIRST MONDAY OF MARCH, AND SOONER IF POSSIBLE.

In order to keep pace with the growth of our City, and, more particularly, of its democracy, we have determined to commence the publication of a Morning paper, as soon as the necessary arrangements can be made, say by the first Monday in March. The papers will be taken from the office by sunrise, and every possible effort will be made, thereby, to give all our subscribers the news of the evening mail, which closes the evening before nine o'clock, the next morning. We will commence on a small sheet and enlarge from time to time, as our patronage will permit.

The MORNING DEMOCRAT, in matters of local policy, will be open to all well written communications, and will advocate the interests of every class of our citizens so far as is compatible with the cardinal principle of democracy, the promotion of which it will always regard as paramount to every other object.

In its politics, the MORNING DEMOCRAT will pursue the same course with the present WEEKLY DEMOCRAT, with an endeavor to improve in every possible light, endeavoring to adhere as strictly as possible to the doctrine of "measures not men," being convinced by every day's experience of the immutability of the one, and mutability of the other. Communications upon matters of State and National policy are respectfully solicited from our democratic brethren.

This will be a great desideratum to our numerous friends in the country, who have so often complained of our large advertising patronage; as it will nearly double the amount of the reading matter for the WEEKLY DEMOCRAT. And we hope they will now be encouraged to use some additional exertions in our behalf.

The price of the MORNING DEMOCRAT will be six dollars per annum, payable half yearly in advance.

THE KENTUCKY SILK MANUFACTURING COMPANY Have from 350,000 to 400,000 of the following varieties of Mulberry, which they will sell and deliver to purchasers, in any part of the Union, or at their Nurseries in Henderson, Kentucky, as early as the season permits, and as cheap as they can be purchased in the United States:

MORUS MULTICAULIS, CANTON,
ALPINE, EXPANSA,
BROUSSA, WHITE ITALIAN.

It is recommended to Silk growers in the northern parts of Ohio, Indiana, Illinois, and Missouri to include in their orders a proportion of the Alpine, Broussa, or either of the other varieties, as no apprehension need be entertained of their being injured by the winter, and the leaves of all but the White Italian, are large, and equal with that, of the Morus Multicaulis, to feed silk worms.—The company have a few pounds of eggs to dispose of, the product of worms of their own raising, consisting of the Mammoth-white, Pea nut, two crop, &c., and in quantities to suit purchasers. All orders addressed to the subscribers, post paid, will meet prompt attention; and trees, roots or cuttings, safely packed and forwarded as directed, when money accompanies the order, or satisfactory reference given; and they warrant all they sell, to be of the quality described.

DR. FALL'S CERTAIN CURE FOR CONSUMPTION, COUGHS, COLDS, &c. PRICE 75 CENTS.—This discovery will undoubtedly confer upon the human family the greatest blessings the inventive genius and labors of men have ever bestowed upon suffering humanity in any age of the world. Until this remedy was discovered, the consumption had been considered as the certain destroyer of a large portion of the human race. Seizing the youth, the middle aged, and the old, indiscriminately, and plunging them into an untimely grave. Who has not beheld with sorrow, the blooming girl, and the young man, who but a few months before, promised to make ornaments to society and the world, nipped, as it were, in the bud, and consigned to the world of spirits, just as they were appearing upon the stage of action!

Fortunately for suffering humanity, the discovery of this medicine, has struck from the catalogue of diseases, the terrors of the most horrible malady that has ever withered the hopes of man.

It is an Indian remedy, that was discovered in the year 1836. Dr. Fall having resided for twelve years in the neighborhood of the Creek Indians, and having been surprised at the wonderful fact, that not a single case of consumption had ever been known to take place among them, was induced to believe that they must be in possession of some cure for this most distressing of diseases. After much exertion, for a term of more than three years, spent at intervals among those children of the forest, a receipt for this disease was obtained and its life preserving principles are now offered through the medium of this medicine, to all mankind. For a proof of the fact that all the Indian tribes of the American continent possess a knowledge of this remedy, it is only necessary to remark that there is not one single instance on record, or even a traditional account among them, of any Indian ever having died of consumption. It is purely a vegetable composition, and one of the most innocent medicines in the world, and like all other articles of medicine used by the Indian tribes, it is simple in its composition.

DIRECTIONS.—Persons afflicted with consumption, must take half a tea spoonful three or four times per day, with the addition of a tea spoonful just before going to bed at night. Patients afflicted with this dreadful disease by using it as above directed two or three months, will find themselves entirely clear of the pain in the breast, and free from the cough, that accompanies the consumption.

It is, also, the best medicine in use, for persons who are troubled with spitting of blood, and slight hacking coughs, pain in the breast, &c., which, when let run on for months, so frequently terminate in consumption. Two or three bottles will, in all cases, relieve the patient, and restore the health entirely. It will entirely relieve the patient from the night coughs, which are so distressing, in a few hours from the time it is first taken.

Taken in doses of a tea spoonful at bed time, it will relieve the most inveterate colds and asthma.
